

# Mastering Functional Occlusion Blueprint 4th Symposium

*Knowledge has No Barrier!*

Erbil International Hotel | 24 April 2025

# Mastering Functional Occlusion

We are thrilled to announce an exceptional and prestigious one-day Symposium in **Erbil on April 24, 2025**, dedicated to the theme of **Functional Occlusion**. This high-standard event will feature a full day of insightful theoretical sessions, hands-on workshops, and will culminate in an engaging panel discussion. **Every dentist in Iraq is welcome** to join us for this unique learning experience!

## Event Highlights

### Interactive Panel Discussion:

The day will conclude with a panel featuring esteemed experts, fostering an **open dialogue with the audience** to encourage interactive and enriching discussions.

### Target Audience:

This Symposium is designed for **Advanced Dental Practitioners** who are engaged in daily clinical practice and are keen to enhance their understanding and application of functional occlusion principles.

# Event Highlights

## Comprehensive Coverage:

The Symposium will delve into physiological functional occlusion across various disciplines, **including restorative dentistry, orthodontics, and surgical approaches.** Topics will encompass diagnosis and treatment planning, deprogramming, therapeutic interventions, and other related subjects, all grounded in evidence-based clinical practice.

## Esteemed Speakers:

We are honored to host **6 renowned international and 4 National speakers** who will share their expertise and insights, providing attendees with a wealth of knowledge and practical skills.

## Past Glories

### Hollywood Smile: The First Blueprint Symposium (2017)

- Up to 400 Participants

### Second Blueprint Symposium in Erbil (2022)

- Up to 800 Participants

### Third Blueprint Symposium (Event) in Duhok (2023)

- Up to 400 Participants

# Schedule

## Lectures:

Each session will be **50 minutes long**, ensuring ample time to explore advanced topics in depth.

## Hands-On Workshops:

The Symposium will feature **Two Practical Sessions**. Participants will have the chance to apply learned concepts in a controlled environment. These hands-on sessions will help attendees **refine their skills and build confidence** in using functional occlusion techniques.

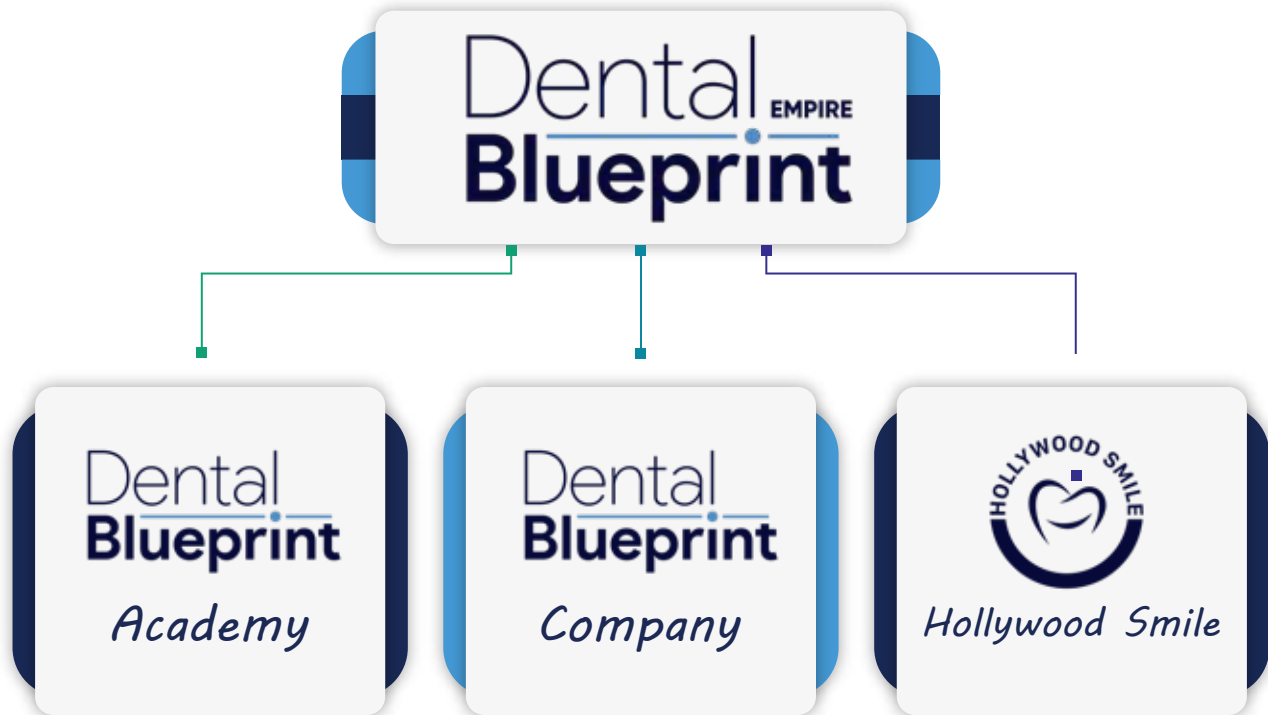

## Panel Discussion:

An open forum where **panelists and speakers** can engage in dialogue to address and reconcile controversies.

## About Us?

**Dental Blueprint Empire** is a forward-thinking organization dedicated to advancing the field of dentistry into a new era.

Blueprint Empire is committed to shaping the future of dental care and education Founded by:

- **Dr. Khidher Mustafa**
- **Dr. Saeed Tutmayi**
- **Dr. Zardasht Bradosty**

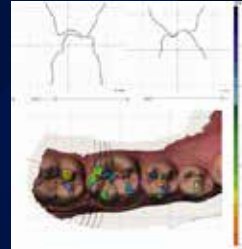

This **innovative empire** is at the forefront of dental excellence. This event will serve as a comprehensive platform to share the latest research and breakthroughs in dentistry.
